AWARD WINNERS

COMPUTER ANIMATION FESTIVAL

BEST STUDENT FILM

GARDEN PARTY

(07:25 MINS)

DIRECTED BY THÉOPHILE DUFRESNE, FLORIAN BABIKIAN,
GABRIEL GRAPPERON, LUCAS NAVARRO, VINCENT BAYOUX,
VICTOR CAIRE

FRANCE

In a deserted rich house, a couple of amphibians explore their surroundings and follow their primal instincts.

BEST IN SHOW

AFTERWORK

(06:15 MINS)

DIRECTED BY LUIS USON

ECUADOR

The cartoons entertain us, they make us laugh, they make everything shine even though we have had a bad day at work and are our best friends when we feel alone. But, do we know what they do when the screen goes off? Do we know who they really are? Are they happy? Without realizing it a laugh may become a grimace of despair. Afterwork is a short film that reflects on what cartoons, work, routines and alienation represent. Takes place in a world in which cartoons, of flesh and bone attempts to find meaning in their existence.

PANEL & PRODUCTION TALK COMPUTER ANIMATION FESTIVAL

FROM PEPE TO PIGGY: THE EVOLUTION OF GOOGLE SPOTLIGHT STORIES

27 NOV, 14:15-16:00

Venue: SILK 1 & 2, 2nd Floor

Google Spotlight Stories began in 2013 with "Windy Day", an experimental 360 degree mobile story about a mouse named Pepe and his obsession with a hat. Four years later they are set to release "Piggy", their 12th short about a jogging pig tempted by a scrumptious cake.

Join the Spotlight Stories team as they discuss the evolution of Google Spotlight Stories and the challenges of interactive storytelling in VR and 360 degree mobile.

Mark Oftedal, Co-director of "Piggy"
Google Spotlight Story

PRODUCTION CHALLENGES AND LESSONS FROM MAKING VR FILMS

27 NOV, 16:15-18:00

Venue: SILK 1 & 2, 2nd Floor

Get a behind the scenes look from Industry pioneers into the production processes, experimental techniques and on the ground challenges of making story driven VR Films and life changing VR experiences.

The Deserted

Led by the well-known director Mr. Tsai Ming-liang, coproduced by Jaunt China and HTC VIVE, The Deserted (Chinese name: Home at Lanre Temple), is the first Chinese VR film to be selected at Venice International Film Festival. James Fong, CEO of Jaunt China will take audiences through the production process of making the film using Jaunt ONE for shooting and Jaunt Cloud Render System for post processing.

Assassin's Creed VR Experience

Ido Banai, VFX supervisor at Practical Magic on the Assassin's Creed VR and Dunkirk VR experiences, will share his insights and experiences to the core issues he encountered through these VR productions. From applying cutting edge production techniques in controlled 360 VR sound stage shoots to the pains of stitching 5 minutes of 153K 360 moving plate... This session will cover some brief technical overviews of production methodologies and pipelines, address and

PANEL & PRODUCTION TALK COMPUTER ANIMATION FESTIVAL

explore some of the deeper concepts and core factors that played both in favor and against the eventual success of the experiences.

BettVR with Age

While most people are using VR to explore the world, entertainment, and gaming, Virtual Reality has the potential to improve the lives of one of the fastest growing populations in the world, Senior Citizens.

In this talk, Jake Kahana will discuss his project, BettVR with Age, and the research behind creating VR for homebound seniors.

James Fong, CEO

Jaunt China

Ido Banai, CEO/Founder

Plenoptic Cognition

Jake Kahana, Co-Founder

THE MAKING OF PIXAR'S COCO

28 NOV, 14:00-16:30

Venue: GH 202 & 203, 2nd Floor

In this talk, learn how Pixar filmmakers created the world of Coco, telling an epic adventure story celebrating the art and culture of Dia de los Muertos.

Join us as we discuss the artistic and technical challenges in creating the huge cast of characters, beautiful environments, and epic crowds in the film, and how we brought the Land of the Dead to life.

David Ryu, Supervising Technical Director

Alonso Martinez, Character Modeling Artist

Emron Grover, Tailoring Lead

Jacob Brooks, Simulation lead

Aaron Lo, Crowds Technical Lead

Lana Sun, Crowds Technical Artist

Renee Tam, Lightspeed Lead

Pixar Animation Studios

PANEL & PRODUCTION TALK COMPUTER ANIMATION FESTIVAL

DISNEY'S MOANA- DEMYSTIFYING CHARACTERS

28 NOV, 16:45-18:00

Venue: SILK 1 & 2, 2nd Floor

"Moana," is an epic adventure about an adventurous teenager who sails out on a daring mission to save her people. Inspired by the people of Pacific Islands from a long time ago, the creation of the characters of "Moana" was driven by research and team collaboration across the character asset and technology departments.

Natural clothing, accessories and hair created challenging simulation needs where new tools and workflows were developed to achieve the art direction goals. Avneet will share the creative and technical challenges that were met, to bring some these amazing characters to life.

Avneet Kaur, Lead Character Simulation Technical Director
Walt Disney Animation Studios

THE MAKING OF "THOR: RAGNAROK"

29 NOV, 09:00-10:45

Venue: GH 202 & 203, 2nd Floor

Marvel Studios, Framestore, Industrial Light & Magic, and Method Studios take SIGGRAPH Asia audiences through their VFX journey as they created some of Thor: Ragnarok's most heart-stopping moments.

Cyndi Ochs, Visual Effects Producer
Marvel Studios

Alexis Wajsbrot, Visual Effects Supervisor
Framestore

Chad Wiebe, Visual Effects Supervisor
Industrial Light & Magic

Andrew Hellen, Visual Effects Supervisor
Method Studios

THAILAND ANIMATION STUDIOS SHOWCASE

29 NOV, 16:15-18:00

Venue: SILK 1 & 2, 2nd Floor

Meet some of the top animation studios in Thailand with cases studies of some of their award winning original animated contents to discussion about how they keep up with the best of the animation industry around the world in (Thai) style.

Riff Studio

Yggdrasil Group

The Monk Studios

Thai Animation and Computer Graphic Association (TACGA)

UNITY PRESENTS : FILMMAKING IN A REAL TIME ENGINE, THE MAKING OF ADAM

30 NOV, 14:15-16:00

Venue: SILK 1 & 2, 2nd Floor

See the world premiere of ADAM Episode 3 <The Prophet> and go behind the scenes to learn how the ADAM films were produced real time using the Unity engine. Join Chris Harvey, Oats Studios VFX Supervisor (Tron Legacy, Zero Dark Thirty, Chappie) and Mathieu Muller, Unity Film Engineer, as they explain what it took to make a nearly photoreal animation using photogrammetry, custom shaders and the Timeline feature..

Chris Harvey, Visual Effects Supervisor
Oats Studios

PANEL & PRODUCTION TALK COMPUTER ANIMATION FESTIVAL

ILM PRESENTS: BEHIND THE MAGIC, THE VISUAL EFFECTS OF "ROGUE ONE: A STAR WARS STORY"

29 NOV, 16:15-18:00

Venue: SILK 1 & 2, 2nd Floor

Join Alex Prichard, Associate Visual Effects Supervisor, Industrial Light & Magic, as he discusses the Academy Award nominated effects work that went into "Rogue One". Space battles, new planets, "CG Miniatures", a re-programmed Imperial Droid, and a Death Star for good measure, Alex will provide insight into some of the film's biggest challenges and discuss the solutions that brought this new chapter in the Star Wars universe to life.

Alex Prichard, Associate Visual Effect Supervisor
Industrial Light & Magic
